Fitzroy Falls and Bundanoon

12 PT's and their passengers made the trip south to Bundanoon. First stop for lunch was Mittagong Then on to Fitzroy Falls. Several Walk ways and lookouts provide a great view of the Falls and the valley below. After several great photos it was on to our next stop.

Driving through some great country side we arrive at Bundanoon with an hour or so of daylight. Enough time to trek down to the Glow worm glenn. Even after 15 years no major improvements had been made to the access track. Which proved more than an obstacle for some. Those that did make it to the bottom Got to see one of natures special shows. With more Glow worms apperaing as it got darker.

Arriving back at the top was a challenge in the dark. With everyone safely at the top it was onto Mossvale Workers club for dinner. Even here nothing turns out quite as expected When Dennis's meal arrives with more smoke than normal. Not only setting off the alarms but also bringing out the local fireys. All in all a action filled day which by all accounts was most enjoyable and great times had by all

PT's on display

9 PT's Assemble at Towradgi Hotel at Wollongong on July 4th as part of the American Muscle car clubs anual show. No trophies for the PT's but Several memebers win some great prizes in the raffles.

Once again 9 PT's turned out to help out Sids For Kids at Penrith on 18th July With David's Aqua 1 receieving 2 trophies And once again Ray M wins a raffle

Also a regular haunt for PT's is Harry's Cafe De Wheels at Liverpool/Orangetown where on a Saturday night you can see anywhere from 1 to several in the Carpark Like on June 26th

ATTENTION

Just a reminder that this years All Chrysler Day at Fairfield we will have a special display of PT's We are currently looking at who will be coming and what PT's they own Anyone with a special editon IE Route 66 Dream Cruiser or Pacific coast cruiser from any year we would like to hear from you and also anyone else who wish's to attend and display there car We are trying for as many different options for every year of production There will be more details on the forum shortly
